

Roland Cocker

- Dr Cocker has since 1999 provided many training courses around the world and is co-designer and presenter of the EHEDG International Course, given in Denmark, Austria, Spain and the Netherlands on many occasions.
- His main business activities include equipment design, process design, food safety and quality auditing, training in hygienic and aseptic design, processing solutions and regulatory advice. He has also provided expert witness services within the jurisdictions of England, The Netherlands, Germany, Ireland, Greece and Chile.
- He had been employed in England, Scotland, Ireland and the Netherlands for companies such as Glaxo, Biocon and Unilever and in his current role, he has wide practical experience of hygienic and aseptic systems and their supporting management systems, having served over two hundred plants worldwide. This experience has covered biotechnology, biosafety, pharmaceuticals, most types of food, equipment manufacture and chemicals.
- He has a degree in Applied Microbiology from the University of Strathclyde and a PhD from the University of Aston in Birmingham. He is qualified to audit to ISO 22000, HACCP, GMA-SAFE, Yum! Brands (KFC and Pizza Hut) and NSF Cook & Thurber.
- His company, Cocker Consulting has been a sponsor of EHEDG since 2000 and he is chairman of the EHEDG Working Party on Integration of Hygienic Systems. He has also co-authored guidelines on Training and Education, Hygienic Valves and Mechanical Seals.
