Personal Statement:

Dean Scopes is a highly committed and motivated **Quality, Food & Equipment Safety Professional** with wide ranging technical experience, excellent communication skills, and dedicated to achieving objectives. Dean completed a practical apprenticeship as part of his formal education and achieved a practical approach to engineering design and manufacture. He has worked at Tetra Pak since 2001 and has supported Tetra Pak operations gaining hands on experience in delivering Food and Equipment Safety compliance across the Tetra Pak portfolio delivering integrated industrial solutions for Tetra Pak customers. With over 20 years Tetra Pak experience, Dean also has an expert knowledge of the principles of Food & Equipment Safety as well as Quality Management Systems. He is an experienced CE Marking Advisor having run training programs across Europe.

In January 2022, Dean joined the Processing Solutions & Equipment, Projects Centre of Expertise Leadership Team, responsible globally for Quality & Safety (Food/Equipment). He set up the Quality & Safety Office, which has 43 full time globally located staff and is responsible for strategy setting and deployment of Quality, Food and Equipment Safety.

Dean has an active knowledge in all these disciplines and through his own management team he is responsible for, **Food Safety, Food Safety Regulatory Monitoring & Compliance, Equipment Safety, ISO Management System Accreditation, Technical Issue Management during project installations, and Customer Project Quality Assurance.**

Dear Sirs,

My name is Dean Scopes, and I am the Director of Quality & Safety at Tetra Pak Processing Solutions and Equipment, and I am writing to apply for a place on the Advisory Board at EHEDG.

I have been working at Tetra Pak for over 20 years, and in that time, I have strived to make a difference in the integrated industrial food solutions that we have provided to our customers. As an enthusiastic Safety Engineer, I have promoted best practice methodology in Hygienic Design along with the Quality Mindset needed to deliver the best customer experience across our organisation, and it is that enthusiasm that I want to bring to EHEDG.

I am now able to drive strategies and develop the Quality & Safety Organisation, which supports and drives best practice and methodology and I feel with this experience I can support EHEDG to further enhance food safety and quality across the whole industry.

Through the Advisory Board, I believe I can share experience of working in customer projects and business management providing insights to help shape the future of EHEDG. I believe my experience fits well with this opportunity and I would look forward to being able to take this next step. I am excited by the EHEDG offer to industry and where we can still develop it further.

In conclusion, I hope to get the opportunity to join the Advisory Board with you at EHEDG. Thank you for taking the time to review my application and I look forward to your decision.

Yours sincerely,

D. M. Scopes

Dean Scopes
Director Quality & Safety
