

Candidate Profile EHEDG Elections Holger Schmidt

Backing up his practical know-how as a brewer and maltster, Holger Schmidt holds a degree as brewmaster from TUM Weihenstephan. With this he started a career in sales and project engineering for the Food and Beverage supply industry. Representing companies like KHS, APV (SPX) and Huppmann (GEA), he gained a deep insight into the technologies used for food and Beverage processing. For two decades he has been globally mediating the triangle between Food & Beverage producers, plant and machine builders, and automation companies, with a focus on hygienic design and best possible installation of inline process sensors. Travelling globally, he promotes the ideas, technical features and user benefits of hygienic design and certified technologies. Leading the Working Group 37, he has a specific focus on sensors as well within the EHEDG organization. Active membership in the country organization in Switzerland rounds up the picture

Motivation Letter 2022 Elections Holger Schmidt

Working actively in EHEDG for 20 years, I would like to ensure that the changes started will lead to a successful future, especially the cooperation with GFSI, but also the development of documents, services, and training. I am sure, that supporting the organization also in the future will lead to benefits for the entire industry, so I would be very happy to supply my experience as part of it.
