

Vladimir Kakurinov

Vladimir Kakurinov is a Full Professor in Food Microbiology and Food Quality and Safety. With 21 years of academic experience and Food Institute Chairman at the Faculty of Agricultural Sciences and Food, Ss. Cyril and Methodius University, and the Veterinary Faculty at St. Kliment Ohridski University/Republic of Macedonia, he is now working at Consulting and Training Centre - KEY in Skopje, Macedonia.

He worked as an accredited and authorized trainer and consultant for over 20 years in the fields of food safety and hygienic design, both in Europe and developing or transitional countries worldwide, with focus on meat, dairy, baking, fruit, vegetables, feed and beverages industries, and he had over 1,000 individual trainees from over 300 companies and institutions.

Beside these, he performs troubleshooting audits for food factories all over the world, investigating contamination incidents and problem solving. He has expertise on the hygienic design of food factories, production layout, food processing equipment; cleaning and disinfection, personnel hygiene and environmental sampling.

Prof. Dr Vladimir Kakurinov is a founder and Editor-in-Chief of the Journal of Hygienic Engineering and Design (www.jhed.mk). This open access and web based Journal is dedicated to: Hygienic Engineering and Design, Food Quality and Safety and Food Production and Processing. JHED is a regular source of information for more than 35,000 officially registered readers coming from more than 1,500 companies worldwide and many universities, research centers and associations, and is indexed in many scientific databases like: SCOPUS, FSTA, TIB, CAB, CABI etc.
