

Authorised Trainer

# Carla Lima Gomes

Carla holds a degree in Chemical Engineering with a specialisation in Food & Beverage, and a Master's degree in Food Technology Engineering.

With over 25 years of experience in quality management, process engineering, maintenance, and hygiene solutions, she has developed hygienic design and cleaning strategies for clients ranging from large corporations to small enterprises.

As a Hygienic Design Consultant, Carla is dedicated to problem-solving and process optimisation in Microbiological Control and CIP Engineering. She is certified in EHEDG, 3A-Sanitary, heat treatment, and food safety standards.

Currently, she delivers technical training, lectures, projects, and specialised consulting services.

Carla is an active member of the EHEDG – European Hygienic Engineering & Design Group. She is also the founder and owner of ProMC and CIP Solution, companies that design projects and manufacture equipment for the food & beverage and chemical industries.
