

Authorised Trainer

Alexánder Maroto

Education: Chemical Engineer and Master in Business Administration

Role: Tech Support Specialist in Food And Beverage Ecolab, Costa Rica. Mr. Maroto has performed many rolls during his career at Ecolab, as Account Manager, District Manager, Engineering Manager and Tech support Manager.

Background:

Mr. Maroto has been related to food Industry since 1996, has traveled to all Latin America providing support related to food safety and operational sustainability (water and energy) for more than 25 years. He has been very close to hygienic design applied to food factories for the last 10 years and is an EHEDG authorised trainer.

Because of the Latin America size, limitations and market demand Mr. Maroto has direct experience on many different food sectors, as diverse as: protein, poultry, dairy, beer, juices, carbonated soft drinks, powder milk and other custom ones. He has worked on many complex situations related to microbial contamination and trouble shooting. Situation has driven him helping food plants improve their KPIS with sustainable projects related to take care of fresh and wastewater, challenging the minds and practices of the plants and their management.

Alex has led several multidisciplinary and international teams to deliver on market demands, working closely with partners to achieve the goals.
